2. TEACHING RESULTS

Teaching Results
Upon successful completion of the course, the students will be able to: <ul style="list-style-type: none">• learn to use legal methodology and thinking in practice through the analysis of main institutions of the international law (general principles of international law, subjects of international law, sources, international custom, international treaties, state).• deepen their focus into important and current international issues (Middle Eastern, Cypriot) through debates on a case-by-case basis.• acquaint with basic concepts of international law (international custom, international conventions, subjects of international law).• familiarize themselves with the basic terminology of international law (in Greek and English).
General Skills
<ul style="list-style-type: none">• Seek, analyze and synthesize data• Decision making• Team work• Work in international environment• Respect for diversity

3. CONTENT

Through the analysis of the basic disciplines of law, a first acquaintance with legal thinking and methodology is made. Students are taught the basic Latin and legal terminology as well as the terminology of international treaties in Greek and English language. The students are acquainted with basic concepts of international law (international conventions, sources of international law, state, territory, territorial integrity and its restrictions). Special attention is given to criminal liability, protection of human rights, in crimes included in the Statute of the International Criminal Court (genocide, crimes against humanity, war crimes and aggression) and to issues of protection of minorities.
